The Kaltenbronn is a high moor area surrounded by protected forests in the northern part of the Black Forest. A rustic boarded footpath leads all the way to the Wildsee, a mythical lake in the heart of the woods. The Kaltenbronn also comprises several cross-country ski tracks, a ski slope and a sledge run for the winter season. The information centre Kaltenbronn is open year-round and offers an interactive way of getting to know more about the Northern Black Forest area. The so-called Troll Path, which begins just behind the game reserve, is a paper chase-style path especially entertaining for children and young people. Another adventurous path called "Auerhahnsteig" goes round the ski slope – a great highlight for the whole family. www.bad-wildbad.de/kaltenbronn

4 Sommerbergbahn

For more than 100 years, the **Sommerbergbahn**, a funicular mountain railway, has transported Bad Wildbad's visitors from the city centre to the plateau of the Sommerberg mountain. 300 metres above the city, visitors can discover the city's main attractions: the Treetop Walk ("Baumwipfelpfad"), the WILDLINE, a suspension bridge crossing one of the Black Forest's many valleys, and an adventurous forest playground ("Abenteuerwald") www.bad-wildbad.de/sommerbergbahn

5 Treetop Walk Baumwipfelpfad

The **Black Forest Treetop Walk** opens up so far unknown perspectives of this region rich in species and beautiful landscapes. Its 1.2 km long path culminates in a 20m high spiral tower that offers a spectacular 360-degree view of the forest – all year long! However, the mere path leading to the tower is already an adventure with its many climbing, balancing or educative exercises. The path ends with a giant tunnel slide, offering great fun – and not just for children! www.baumwipfelpfade.de/schwarzwald

6 Adventure Playground Abenteuerwald

Located just next to the tower of the Treetop Walk, the adventure playground is an activity for the whole family. More than 20 different installations for all age groups are integrated in the forest on an 8,000sqm area. Please bear in mind the seasonal opening hours. www.abenteuerwald-sommerberg.de/sommerberg

7 Suspension Bridge WILDLINE

For those loving a good adrenaline kick, the 60m high and 360m long suspension bridge WILDLINE is the perfect adventurous activity in Bad Wildbad. It offers deep views down to the valley it crosses and all the way over to the city and is directly connected to the Fairy-tale Path. Its unique construction, being the only suspension bridge in Europe with an upwards-curved arcuate form, is only an additional reason why the WILDLINE is a real must-see on a trip to Bad Wildbad. www.wildline.de

Fairy-tale Path

The Fairy-tale Path is located at the Sommerberg mountain just next to the tower of the Treetop Walk. Its gravelled 3.2km trail can be accessed by wheelchairs as well as suitable prams. The duration of the circular route is 1h. Leading away from the gravelled main track there are three smaller pathways which, however, are not suitable for prams or wheelchairs. Nine of the ten stops during the walk are audio installations which tell the story titled Heart Of Stone ("Das kalte Herz") by Wilhelm Hauff about the boy Peter Munk, fighting for his own happiness. Three figures accompany him: the Little Glass Man, the Good Forest Ghost and the Dutch Michel – a colossal, broad-shouldered man who wants to steal Peter's heart. There's also additional information about a variety of topics. www.bad-wildbad.de/maerchenweg

9 Forest Bathing - Waldbadezimmer

Forest Bathing does not require being physically active in the forest – a slow walk is enough to feel completely at ease. The forest is a health centre and a source of happiness and inspiration. It awakens our enthusiasm and fascination. The area of Bad Wildbad has a 90% share of forest area and thus gives the city the unique position of being the most forest-rich place in the Black Forest. The high afforestation of conifers supplies an extraordinary level of terpene and oxygen in the dust-free air of Bad Wildbad. In the Waldbadezimmer ("Forest Bathroom"), next to the Fairy-tale Path and close to the barbecue area, you can have a first-hand experience of these positive and soothing effects. www.bad-wildbad.de/waldbaden

10 Barbecue area Sommerberg

The Barbecue area on the Sommerberg offers three barbecue spots; two of them are for free. The fee-based one includes a weather protection cabin with space for up to 40 people, a lockable storage place, a broad tripod barbecue, permission for using the access driving path and bathroom facilities. Firewood is to be provided by the users. Bookings and further information can be obtained at Touristik Bad Wildbad, König-Karl-Straße 5, 75323 Bad Wildbad, Tel. 07081 10280, E-Mail: touristik@bad-wildbad.de www.bad-wildbad.de/grillplatzsommerberg

8 Bike Park and Cycling

In addition to the many hiking paths in the Black Forest, you can also discover its special landscapes by bike. The valleys of the Enz River and the mountains around Bad Wildbad present a wide variety of terrain for getting in touch with nature. For less physically-demanding routes, the valley or plateau of Bad Wildbad offer a more moderate athletic challenge. Some serious sportive adventure can be found on the numerous downhill biking paths of the Bike Park. E-bikes can be lent in the city's centre. www.bad-wildbad.de/radfahren

Homeland and Timber Rafting Museum

For those in search of the past, in this museum, you can discover the old tradition of Timber Rafting in the town of Calmbach, where this old tradition left an important imprint. Detailed models, astonishing visual documents and true-to-life figurines allow you to dive deep into the cultural heritage of the Black Forest. The main focus of the museum is the history of Timber Rafting in the Enz River Valley. www.bad-wildbad.de/floessermuseum
